ESSENTIAL SINGAPORE

A savvy guide to maximising your visit
Drinking Water
The water supplied by the Public Utilities Board (PUB), Singapore's national water agency, to all faucets across the island is potable. Singapore treats water from its reservoirs, and also uses modern technology to recycle waste water into clean water once again.

Electricity
Singapore's power supply runs an alternating current of 220-240 volts at 50 hertz. Electricity is supplied to the entire island at all times of the day, and blackouts are extremely rare.

Language
Although Malay is the national language of Singapore, English is the language of commerce and is spoken fluently by just about the entire population. English, Malay, Mandarin, Tamil, other Indian languages and foreign languages are taught in schools, while the Chinese population also speaks dialects like Cantonese, Hakka, Hokkien and Teochew.

Singlish (English influenced by Malay, Mandarin and Tamil sentence structure and peppered with Chinese dialect) is a widely used form of communication among locals, whom you can ask to speak slower if their Singlish is too fast for you.

Tipping
Tipping is not common, as many Singaporean establishments already include a 10% service charge. Increasingly, restaurants and bars are giving customers the option to tip by omitting the service charge. In this case, a 10% tip is appreciated.

WiFi
WiFi is available at selected hotspots in popular tourist destinations, MRT stations and even some bus routes. Need a mobile connection? Pop into a hotel or cafe and chances are you will be welcome to tap on the establishment's WiFi. Alternatively, SIM cards with mobile data are inexpensive and widely available at convenience stores, mobile phone shops and outlets of service providers.

Currency Exchange
Singapore uses the Singapore Dollar (abbreviated as SGD or S$). Money changers can be found in Changi Airport, shopping malls and hotels. Automated teller machines (ATMs) across the country accept major credit cards like Visa, MasterCard and American Express.

GST Refund
Making a purchase of at least S$100 from participating outlets that display a "Tax Refund" or a "Tax Free Shopping" logo entitles you to a refund of the 7% Goods and Services Tax (GST).

Request a refund voucher when making your purchase, and present this voucher at Changi Airport's Tax Refund Counter, along with your purchases, receipts and passport, before you depart the country.

Visit www.customs.gov.sg for more information about the Tourist Refund Scheme.

THE SINGAPORE RIVER

Once the main commercial artery of Singapore—its banks lined with warehouses, street vendors and squatters—the Singapore River comprises Robertson Quay, Clarke Quay and Boat Quay, and has in recent decades changed completely. Following a nearly 10-year clean-up and revitalisation programme in the 1970s and 1980s, it is now a bustling recreational precinct, filled with trendy restaurants, bars, heritage buildings and even a museum. Many reminders of its historic past remain, however, in the form of iconic statues and stately buildings.

"Over the three generations it has been here, our magazine shop has grown larger and has become somewhat of a famous landmark in this modern village. Come have a look at our wide selection of international magazines and newspapers."

one-north:
Fondly referred to as the Silicon Valley of Singapore, the neighbourhood of one-north in Buona Vista houses several start-up hubs.
On Ayer Rajah Crescent are two of the most well-known ones: BLK71 and JTC LaunchPad @ one-north, whose diverse start-ups and incubators cover biomedical, pharmaceutical, cleantech and engineering initiatives, bring the total number of start-ups on the crescent to about 500.
Also on Ayer Rajah Crescent, “hipster-hawker” food truck park Timbre+ (73A) comprises Japanese, Indian, Singaporean, French and other stalls in a lunch hall setting.
Mediacorp, Disney’s Sandcrawler and Infinite Frameworks Studios®, which handles the post-production of many Hollywood films, have complexes here, and actors and crew can be often spotted enjoying a cold one at DSTLLRY (01-01, 21 Media Circle) or coffee at cafes like One Man Coffee (4 Fusionopolis Way) and Envoy Coffee (1 Fusionopolis Link).
If a historic atmosphere is what you are after, it’s worth exploring Portsdown Road, east of one-north and famous for its black-and-white colonial mansions, as well as the modest but historic colonial-era hangout spot ColBar Eating House (9A Whitchurch Road), which sells simple Continental platters, alongside savoury Asian stir-fries.

Further north, pay a visit to the eateries of Rochester Park and The Star Performing Arts Centre and its adjoining mall The Star Vista (1 Vista Exchange Green), which contain many affordable food options and regularly host performances by international artists and musicians.
The quaint Changi Village is dominated by antique houses built during British rule, as well as rustic coffee shops and restaurants. The neighbourhood’s food centre offers great local dishes. The nasi lemak (coconut rice with chilli paste and dried fish) is the most renowned.

Anjappar’s signature style of South Indian Chettinad cuisine has made fans out of many Singaporeans. Its rich flavours are very popular with Changi’s office workers.

When exploring Changi Village, stop by for a very affordable pint made on-premises by one of the many excellent microbreweries that call Singapore home. This cool, industrial-style warehouse space also houses a pub, where you can order drinking snacks, brunch and everything in between.

The island’s intriguing remnants of World War II’s prisoners-of-war also houses many relics that once belonged to POWs of the Japanese Occupation, as well as nearly 5,000 records of registered Civilian Internees.

While tricky to get to without a car or taxi, this quickly furnished, sun-drenched heritage house-turned-restaurant has a loyal following at all times of the day, thanks to its verdant and scenic locale along colonial Netheravon Road. Particularly popular for brunch, this place sees returning customers lounging for hours.

This museum dedicated to World War II’s prisoners-of-war also houses many relics that once belonged to POWs of the Japanese Occupation, as well as nearly 5,000 records of registered Civilian Internees.

A 15-minute bumboat ride from Singapore, Pulau Ubin is one of the last places to see village life in Singapore as it used to be before the country’s massive urban redevelopment. Beyond scenic bicycle trails and delicious seafood, the island, named after its large granite quarry, packs a number of lesser-known surprises.

Trek through its rubber trees, which used to be commonplace throughout Singapore and the Malayan Peninsula, and you will be surprised by the stunning beauty of Pulau Ubin’s Blue Lake and granite quarry. Walk round the shore of the latter and you might find a huge statue of the Taoist Goddess of Mercy, Kuan Yin, which was carved by devotees out of the local granite.

One trail leads to the mangrove wetlands of Chek Jawa, where tiny crabs take refuge in the mud while sand dollars speckle the seashore. (Guided tours of Chek Jawa are available) There is also a sensory trail, on which visually impaired visitors to the island are invited to take in Pulau Ubin’s many sounds and smells. To the delight of weary trekkers, chilled coconuts are available as refreshment in Pulau Ubin’s kampong houses.

The island’s intriguing remnants of the past include the disused House No. 1, which is Singapore’s only traditional Tudor-style house, as well as the spooky German Girl Shrine, where believers offer dolls and other toys to the shrine’s resident spirit, believed to be a fraulein who fell to her death during the First World War, in exchange for good fortune and success in business. One of the best views of the island and its surrounding land masses can be enjoyed on top of the 20m-tall Jejawi Tower, from which one can spot the island’s many macaque and wild boar packs.

Changi is a very special place because of its history and its tranquil setting. I would sincerely recommend every visitor to visit Changi, especially to our museum, to learn more about Singapore’s military history and enjoy good food at the same time within its nice surroundings.”
